CiSNe Summer Symposium in Biophysics and Neurobiology

“From single molecules to complex multicellular
organisms”

January 06-09, 2015 - Valdivia, CHILE

Dear Colleagues,

CiSNe, the neuroscience center at *Universidad Austral de Chile*, is pleased to invite you to its *first summer symposium*, taking place from 6th January to the 9th January 2015 at the beautiful city of Valdivia, CHILE. We would like to invite junior and established investigators to come and network with experts who will present novel findings and experimental procedures.

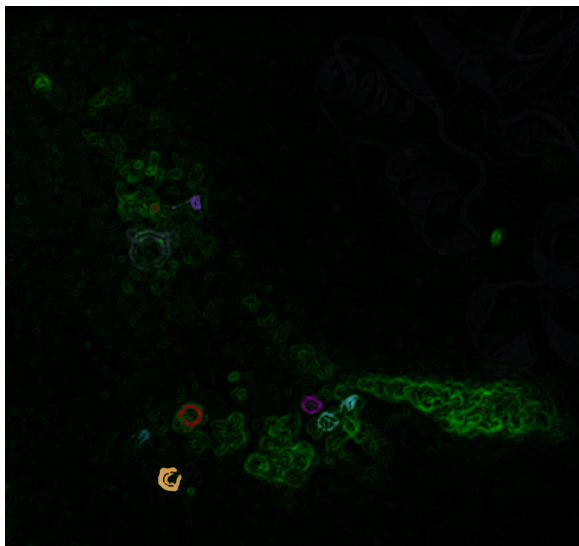

The aim of this four-day conference is to provide a forum for scientists working in different aspects of biophysics and neuroscience including ion channel biophysics, single molecule studies, sensory systems and perception, cell motility, neurodegenerative diseases, CNS development and more. The event is designed to provide a friendly environment useful to promote interaction, improve collaboration networks, and allow doctoral students to look for postdoctoral advisors.

Attendants:

Principal and post-doctoral investigators not giving talks should pay a registration fee. This fee will be waived for all registered students. The organization committee will help the attendees on their hotel search upon request. Regular attendants will participate in the conferences and poster presentations, however, some activities may be reserved to the speakers and presenting students.

For more information and to register:

Speakers

Christopher Ahern - University of Iowa, US
Claudio Araya - Universidad Austral de Chile, Chile
Roberto Araya - University of Montreal, Canada
Nelson Barrera - Pontificia Universidad Católica, Chile
Federico Batiz - Universidad Austral de Chile, Chile

Sebastian Brauchi - Universidad Austral de Chile, Chile
Francisca Bronfman - Pontificia Universidad Católica, Chile
Andrea Brueggemann - NANION, Germany
Maite A. Castro - Universidad Austral de Chile, Chile
Baron Chanda - University of Wisconsin Madison, US

Miguel Concha - Universidad de Chile, Chile
Jorge Contreras - Rutgers University, US
Felipe Court - Pontificia Universidad Católica, Chile
Andres Couve - Universidad de Chile, Chile
Carlos Flores - Centro de Estudios Científicos, Chile

Juan P. Henriquez - Universidad de Concepcion, Chile
Claudio Hetz - Universidad de Chile, Chile
Bredford Kerr - Centro de Estudios Científicos, Chile
Thilo Kähne - Otto von Guericke University, Germany
Harley Kurata - University of British Columbia, Canada

Jana Kusch - University of Jena, Germany
Karin Lykke-Hartmann - Aarhus University, Denmark
Rodolfo Madrid - Universidad de Santiago de Chile, Chile
Elena Oancea - Brown University
Patricio Olguin - Universidad de Chile, Chile

Adrian Palacios - CINV, Chile
Kenton Swartz - National Institute of Health, US
Justin Taraska - National Institute of Health, US
Claudia Torres-Farfan - Universidad Austral de Chile, Chile
Patricio Rojas - Universidad de Santiago de Chile, Chile

Brad Rothberg - Temple University, US
Joshua Wolfe - Johns Hopkins University, US
Brigitte van Zundert - Universidad Andres Bello, Chile
